EDITORIAL

GLEBE HOCKEY CLUB'S OFFICIAL NEWSPAPER

With just over half the season gone I have been pleased with the response to the Red Rag.

Members generally have been interested, and the Editorials written by a member of each team have been fruitful and forthright, which is what we want. However, except for a few members of both sexes contributions to the paper have been non existent.

During the season I have spent much of my time listening to some players griping about "this and that", cripes I thought pommies were the only whingers (present ones excluded), but I've come to realise that Aussies (senior members) leave them for dead.

Well all I can say to them is get off your backsides, and do something about it. Lets show younger members the way.

Another thing on my mind is 1st grade, the No.1 team in the Club. Okay so they are having a bad trot at the moment (who wouldn't on Jubilee Oval). Remember only one defeat so far, and what about their blitz on U.N.S.W. on a good ground in the Bisley Cup? To me its the final game that matters, remember Glebe only lost one game in '75 the "GRAND FINAL". So let's get behind them now and work towards the ultimate day when they regain the cup.

Another matter I must bring up is the Sport News, which I am going to drop, as I dont think its carrys enough interest to members overall. I have been asked to present a more personal approach (social and gossip) and I agree. So I appeal to all the thinking(?) members to whisper in Royce Jenkins ear their innermost thoughts to what is or about to happen. He will have his own "Royce's Choice's" column. So help him.

PAUL ROGERS.

LETTERS TO THE EDITOR:

Dear Editor,

As the wife of one player who has come in for his share of "bagging" over the years, I can only endorse Therese Corben's article. Nobody objects to the occasional good-natured "ribbing", but I wonder if these "so-called supporters" realize how distasteful it is sometimes for the wives, girlfriends and mothers of these players to have to listen to their continual unjustified remarks.

You've given them the opportunity, so I'm looking forward to reading this week's Red Rag to see how many of these particular individuals can defend their peculiar form of "barracking".
